

K-LOVE radio provides an extremely important service to this community. It would be devastating to me personally to have K-LOVE displaced by an LPFM broadcaster providing other programming. I listen to K-LOVE every day, all day long at my office, as well as on the weekends at home and in my car. K-LOVE provides positive and encouraging programming to this and many, many other communities across the country and the world, which is so desperately needed today. My life, as well as many others, would be dramatically affected if K-LOVE were not able to remain in our community. K-LOVE means so very, very much to me, and I pray that you will allow K-LOVE to remain as an FM translator and not allow the LPFM priority over the FM translator service. Thank you for allowing me to comment.
